

## St Breock Primary School

### SEND Information Report and Local Offer

Date **2018/19**

St Breock Primary School is a happy and creative school for boys and girls aged 4-11 set in Wadebridge, North Cornwall. We aim to provide a safe, friendly and supportive environment, in which all pupils can fully flourish and achieve their potential, whether or not they have additional needs. We are very proud of our school. We aim, always, to work closely with parents, pupils and other professional services to ensure barriers to learning are removed and full access to the curriculum for all pupils.

On identifying an additional need, we adopt an ongoing graduated approach to Assess, Plan, Do and Review the impact of any interventions pupils receive. We will provide a variety of different provisions which may include short-term specific interventions, 1:1 sessions, home-school interventions, interventions developed to address an individual need, as well as support from external agencies where appropriate. At every stage, we aim to work in close collaboration with families and rely upon invaluable input from each child's primary educator – their parents/carers.

We are a fully inclusive school. Every child at St Breock Primary School has the opportunity to follow a broad and balanced curriculum, including all the subjects in the National Curriculum and / or all areas of learning in the Early Years Foundation Stage. The planning and delivery of our curriculum is differentiated by our teachers and teaching assistants to ensure access for all.

At St Breock Primary School we are fully committed to narrowing the gap between SEND and non-SEND pupils.

## 11. Pupil progress

Pupil's progress and attainment is an ongoing process of teaching, learning, consolidating and applying. The class teacher and support staff complete this. Children receiving Special Educational Support have Individual Educational Plans (IEP's) which show the support being put in place, enabling the children to achieve their targets. These are shared with parents and pupils. Progress towards the targets are continuously monitored and assessed. Pupils, parents and their teacher review targets and provision and successes are celebrated. If a child continues to require SEN Support, new targets and provision are planned and recorded using an IEP. However, if a child makes expected progress, they will be removed from the SEN Support register and placed 'On Alert', to ensure that their progress is closely monitored for two further consecutive terms. Parents can request a meeting with the class teacher, the SENDCo, or the Head of School. Any concerns with progress are discussed with the Head of School, teacher or SENDCo. All pupils are involved with self-assessments at the end of learning tasks and against learning outcomes in lessons.

## 12. How we know how good our SEN provision is

At St Breock School we are always monitoring and evaluating the quality of our SEN provision. We monitor our provision through Aspire Academy Hub monitoring visits, SENDCo observations and learning walks and conversations with pupils. We also ask parents for feedback and comments during review meetings and through parental questionnaires. In terms of intervention and specific provision, there is an entrance and exit assessment made to ensure the pupils are making progress from the provision. We make any appropriate adaptations as necessary. St Breock

School reviews its SEN provision annually using the Aspire Charter Mark, which identifies strengths and areas for improvement, against the statutory requirements stated in the SEND Code of Practice 2015. From this, an action plan is produced.

### **13. If you wish to complain**

The first point of contact for concerns should be the class teacher. If you feel that there are still concerns or questions unresolved then contact the SENDCo (Kate Williams) or Head of School (Sian Hall) to arrange a meeting.

**Cornwall's SEND Local Offer can be found on The Care and Support in Cornwall website: [SEND Local Offer](#)**

## **Answers to Frequently asked Questions**

### **1. How do people in school know if a pupil needs extra help?**

Our school has an 'open door' policy to parents and have extremely well-developed links with the parents of the children that attend St Breock School. Children's progress and behaviour are monitored through termly tracking systems. Children who may be vulnerable are identified on class 'On Alert' sheets and are monitored to assess whether they need additional support. If a child transfers to our school from another Primary school, then we always do our utmost to find out as much information as possible about that child from both parents and the child's previous school. If there are external professionals involved with that child, then their opinions and reports are sought after to ensure that we get the full picture of that child.

### **2. What should I do if I think my child may have special educational needs?**

If you think that your child may have a special educational need then talk to us. We are here to listen and to help. You should talk to your child's class teacher in the first instance and then after discussion they may set up a meeting with the Special Educational Needs and Disability Co-ordinator (SENDCo) and / or the Head of School. Following these meetings steps will be taken to address any concerns you may have about your child.

### **3. Who is responsible for the progress and success of my child in school?**

The progress and success of your child in school is everyone's responsibility. By 'everyone' we mean all school staff, parents as well as the child themselves. Whole cohort termly progress meetings with staff ensures progress is tracked and monitored appropriately and discussions about vulnerable groups take place in staff meetings when appropriate. Where necessary, specific and targeted intervention support will be deployed.

### **4. How is the curriculum matched to my child's needs and how will their needs be supported?**

At St Breock School we are flexible and creative with our approach to the Early Years Foundation Stage Framework and Primary Curriculum and plan lessons to be accessible for all. In all classrooms there are three 'waves' of support: Whole Class (Wave 1) – support and resources available to everyone in that class; Group (Wave 2) – support and resources available or tailored for small groups of children; and 1:1 (Wave 3) – support and

resources specifically designed for or accessible by individual children. All lessons are differentiated appropriately according to the needs of the children in that class or group whether it be by the amount of support children will receive, resources they may use or the expectation the teacher has of those children when that lesson is finished. Children are sometimes withdrawn from the classroom in small groups or on a one to one basis for more intensive support from a teacher or teaching assistant, or to take part in an intervention program designed to meet and support the needs of that individual or group of children. Children may also be withdrawn by staff for physiotherapy sessions or individual speech therapy support.

### **5. How will I, and my child, know how well they are doing?**

St Breock School operates an effective 'open door' policy to create a constant positive dialogue with parents. In addition to this, staff may ask to speak with parents at the end of the school day. Parents and pupils are invited to engage in termly SEN review meeting, and/or Parent meetings in the Autumn and Spring terms and annual reports are sent home to parents. Throughout the year there are 'open afternoons' whereby parents are invited into the classrooms to share the children's learning, progress and support upcoming events e.g. class trips/residentials. All this constant dialogue between school and parents will help you to support your child's learning at home and inform you of how they are progressing in school. If at any time you wish to discuss your child, then meetings can be arranged with class teacher and / or the Head of School at your request.

### **6. What support is there for my child's overall wellbeing?**

Your child's overall wellbeing will be constantly supported in school in a variety of ways. We will help them; to be healthy by ensuring that they enjoy good physical and mental health, by encouraging them to live a healthy lifestyle, keep safe by protecting them from harm and neglect, to enjoy life; achieve well, by giving them opportunities to make the most out of life, by teaching them the skills they need for adulthood, to make a positive contribution to their school, community and society, by being involved in their community and society and discourage involvement with anti-social or offending behaviour, contribute to their economic well-being and by ensuring that they are not prevented from achieving their full potential through economic disadvantage.

### **7. How do I know that my child is safe in school?**

At St Breock School we have a variety of measures, policies and procedures in place to ensure that your child is safe. All staff are checked by the Disclosure and Barring Service (DBS checks previously known as CRB checks) and have tier 2 child protection training. There are also named members of staff who are trained to tier 3 in child protection. We have a safeguarding policy and have risk assessments in place for a wide variety of activities and situations that may arise.

### **8. How is my child included in activities outside the classroom including school trips?**

Everyone is included in everything at St Breock School. Activities outside the classroom are a part of everyday life for us and we undertake a wide variety of school trips throughout the year. All children are encouraged to take part in after school clubs, and those children who need it are supported appropriately. The same applies when it comes to trips and residentials and adaptations are made where necessary to ensure that every child is included whilst at the same time carefully ensuring that those adaptations do not affect the experiences of other children.

### **9. How accessible is the school environment?**

The school building at St Breock School is accessible to everyone who attends school or who comes to visit us. We have good access to every classroom. We have a disabled toilet and changing facility.

### **10. How will school prepare and support me/my child through the transition from key stage to key stage and beyond?**

Your child will be highly supported by school throughout every transition process. We would meet with everyone involved in supporting a child's needs, talk to the relevant external professionals as well as involving members of staff from the next stage of schooling in these meetings. Where a child is transferring to a secondary school, they would be able to undertake extra transition days to allow them to become more familiar with the environment.

### **11. How are the school's resources allocated and matched to pupils' special educational needs?**

Each year the school decides on an allocation of money for special educational needs (SEN). For all children on the school's SEN register the school itself is expected to meet the first £6000 of any resources and support required by each individual child. For those children with an Education, Health and Care Plan, spending above the £6000 may be claimed back from the local authority up to a limit set by the resources provided by the statement. In addition to this, these children also have access to free resources and support from external professionals such as Educational Psychologists for example. In-school resources and support are detailed in Individual Education Plans (IEPs). These plans are individually tailored to each child on the SEN register and specify which resources will be used to support that child, how much support they will receive and whether any additional adult support will be used.

### **12. What should I do if I feel that the SEND Information Report and Local Offer is not being delivered or is not meeting my child's needs?**

If you feel that the SEND Information Report and Local Offer is not being delivered or is not meeting your child's needs then we urge you to contact school in the first instance, speaking to either the SENDCo (Kate Williams) or the Head of School (Sian Hall). Concerns may then be escalated, if necessary, to the Director of Inclusion (Sue Costello) or to the Board of Directors at Aspire Academy Trust.

### **13. Who can I contact for further information?**

For further information, please contact either the school SENDCo (Kate Williams) or the Head of School (Sian Hall).
